BRATISLAVSKÝ HRAD

— BRATISLAVA CASTLE —

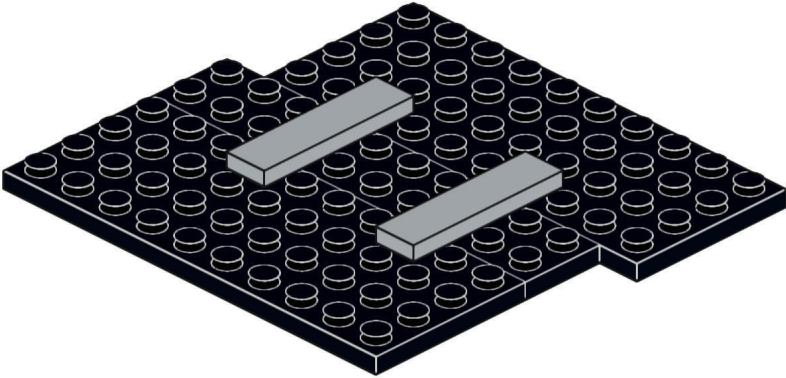

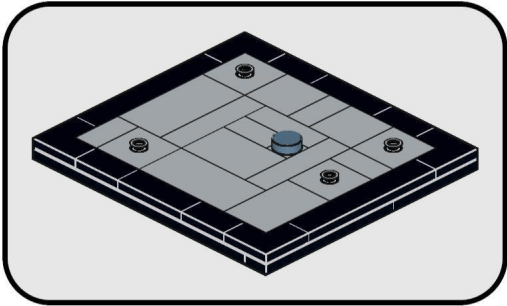

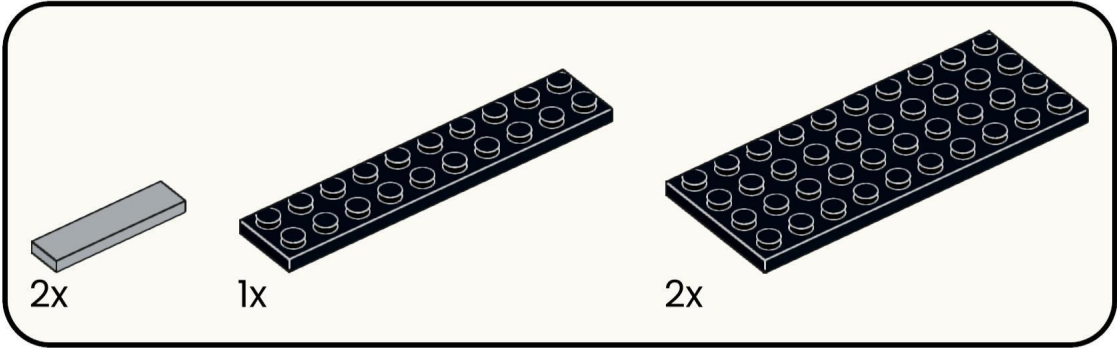

Bratislavský hrad je výrazná dominanta, ktorá stojí na rieke Dunaj v hlavnom meste Slovenska.

Miesto bolo osídlené už v praveku a už v 9. storočí tu stálo opevnenie. Hrad zohrával dôležitú úlohu v Uhorskom kráľovstve, slúžil ako kráľovské sídlo a význam získal aj za vlády cisárkovej Márie Terézie v 18. storočí.

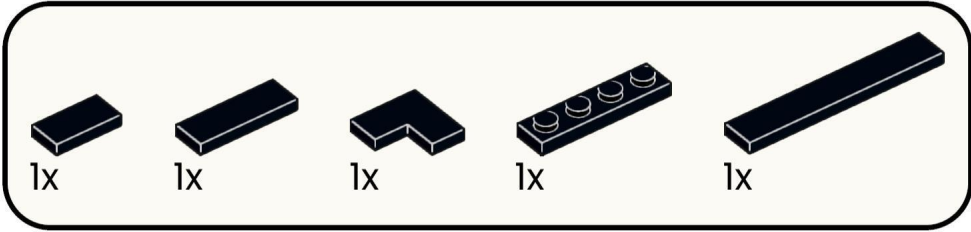

Jeho obdĺžnikový tvar so štyrmi nárožnými vežami je ľahko rozpoznateľný, pričom najväčšia je Korunovačná veža. Z hradných terás sa naskytajú panoramatické výhľady na Bratislavu, rieku Dunaj a prilahlé časti Rakúska a Maďarska za jasného počasia.

Bratislava Castle is a dominant landmark that stands on the Danube River in the capital of Slovakia. The site has been settled since prehistoric times, and a stronghold stood here as early as the 9th century. The castle played a major role in the Kingdom of Hungary, serving as a royal residence and later gaining prominence under Queen Maria Theresa in the 18th century.

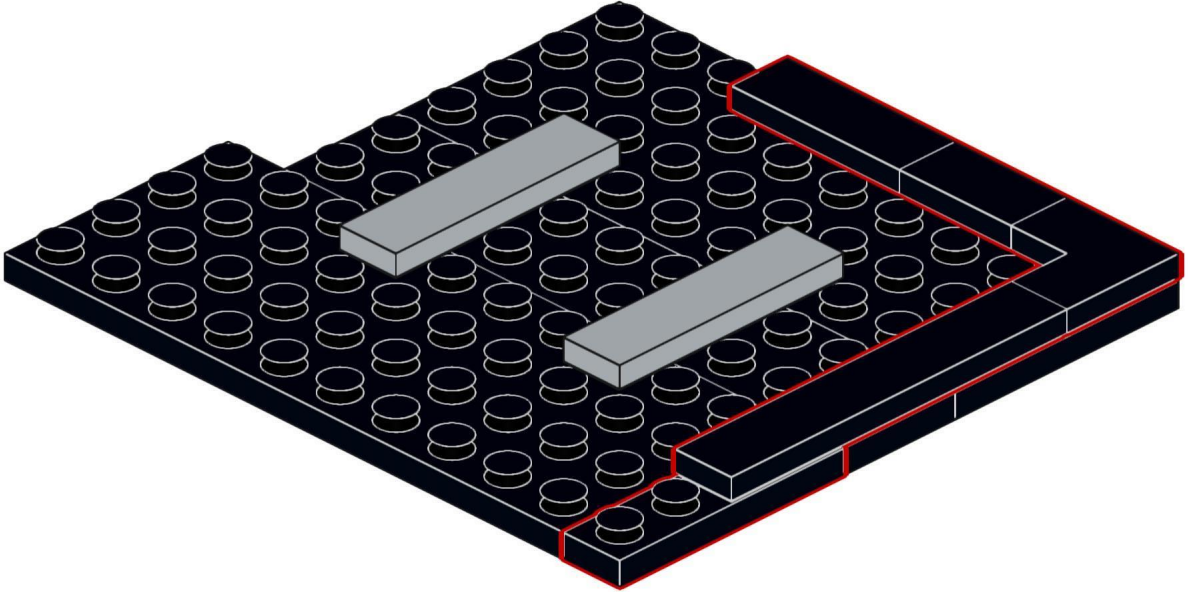

Its rectangular shape with four corner towers is instantly recognizable, with the Crown Tower being the largest. From its terraces, the castle offers panoramic views over Bratislava, the Danube river, as well as neighboring Austria and Hungary on clear days.
